ADVANCE BULLETIN of FORESTRY and LINING OUT STOCK

SPRING 1927

ORDER now to avoid disappointment later. Our stocks are plentiful at this time and we are making special prices in the following lists. Many varieties we carry in quantities of more than a hundred thousand of each size and are always glad to quote special prices on definite lists. The lists of varieties are, of course, incomplete and we shall be glad to quote anything which does not appear in this folder. In Deciduous Shrubs, for instance, only the more valuable and scarcer varieties are mentioned--while our stock comprises practically every variety that is commercially grown.

The following grades are listed here:

Tree Seeds (back pages)

Seedlings and Transplants (middle pages)

Large transplants for quick effects (front pages)

PRICES:—Net, packing at cost. Orders for 250 at thousand rate and 50 at hundred rate. No orders accepted less than 50 of one variety. Prices subject to change without notice. No order for small seedlings less than 100.

TERMS:—Any claims for errors or shortages to be rendered within ten days after receipt of stock.

Large Transplants for Quick Effects

IT is not necessary to use specimen grades for mass planting, screens, hedges, etc. We have a special grade for this purpose in fine New England grown Evergreens—perfectly healthy and hardy and all twice or more times transplanted (except where noted)—These trees have good fibrous roots and are shipped without ball of earth, carefully packed in wet moss, unless otherwise requested. We have found a ball not necessary for these small sizes.
